PROFESSIONAL SUMMARY

Full Stack Java Developer with **1 years of experience** in designing and developing scalable web applications using **Java, Spring Boot, Microservices, React JS,Redux, and Oracle Database**. Strong expertise in REST APIs, frontend SPA development, database integration, and Agile delivery. Proven ability to build performant, maintainable, and user-centric applications.

WORK EXPERIENCE

Shivarix It Service Nov 2024 – Present

Software Engineer *Indore, India*

- Developed and maintained full-stack applications using Java,React JS, Redux, Axios ,SpringBoot,Sql.
- Designed and implemented RESTful APIs and backend business logic using Spring Data JPA and JDBC.
- Worked with Microservices architecture and integrated frontend with backend services.

Code Better — Indore Jan 2023 –Apr 2023

React JS Intern / Frontend Developer *Indore, India*

- Designed and developed **Wordwise** , a map-based travel tracking **Single Page Application (SPA)** using **React.js**.
- Integrated **React-Leaflet and OpenStreetMap** to display interactive maps with markers and popups.
- Managed global state using **React Context API**, reducing prop drilling.
- Optimized component re-renders using **useEffect dependencies** and controlled state updates.

EDUCATION

Acropolis Institute of Technology And Research Indore

Integrated Master of Computer Applications (BCA+MCA); ***CGPA****: 7.97/10.0* *Indore, India*

- **Relevant Coursework:** Advanced Data Structures, Database Management Systems, Software Engineering, Web Technologies, Object-Oriented Programming

TECHNICAL SKILLS

Programming Languages: Java ,JavaScript
Backend Technologies: Spring Boot, Spring Data JPA, JDBC, REST APIs, Microservices
Frontend Technologies: React JS, Redux, Axios, HTML, CSS, JavaScript, Bootstrap, Material UI, Tailwind CSS
Databases: Oracle: SQL
Tools & Frameworks: Git, Maven, Gradle, JUnit, Postman
Methodologies: Agile, SDLC

PROJECTS

Tranquest UI Project Web Application | *Spring Boot, Oracle DB, Spring Data JPA, Rest ,React* July 2024 – Dec 2025

- Developed and maintained Tran quest UI application using React JS and Integrated Spring Boot REST APIs.
- Implemented transaction workflows including Approve, Mark as Fraud, and Wait for Customer actions.
- Designed dashboards to monitor failed transactions, pending approvals, and system performance metrics.
- Integrated frontend with backend APIs using Axios and Redux for state management.
- Optimized SQL queries and database interactions for improved response time.

WorldWise – Map-Based Travel Tracking Application *React JS, JavaScript (ES6+), React Router, React-Leaflet, , Context API, CSS,* **SPA, Hooks, Custom Hooks, Responsive UI, Component Reusability** May 2023

- Developed and maintained an interactive map-driven React application to track visited cities and travel history
- Implemented geolocation-based features and deep-link navigation using query parameters.
- Enhanced user experience with clean UI, formatted date handling, and responsive layouts.

ACHIEVEMENTS & CERTIFICATIONS

- *Java Full Stack Developer — Naresh IT, Hyderabad*
